microcircuit following a request sent by the terminal, the other messages being processed by means of the module.

5. (Amended) A method according to claim 1, wherein the messages exchanged between the microcircuit and the terminal are formatted according to a Hayes type format by formatting means of the module.

6. (Amended) A method according to claim 1, wherein a message sent by the microcircuit or the terminal respectively to the terminal or the microcircuit respectively is included in the following list:

- +CTKC list of parameters
- AT+CTKR list of parameters
- +CTKE list of parameters
- AT+CTKV list of parameters
- +CTKER liste de paramètres
- AT+CTKP list of parameters
- AT+CTKF list of parameters.

REMARKS

The application has been amended claims 3-6 to eliminate the multiple dependent claims to better comply with the U.S. Patent and Trademark Office practice. The amendments do not narrow the scope of the claims.

No fees are believed to be payable with this communication. Nevertheless, should the Examiner consider any other fees to be payable in conjunction with this or any future communication, the Director is authorized to direct payment of such fees, or credit any overpayment to Deposit Account No. 50-1170.
